Estate Planning Services

Wollman, Gehrke & Solomon, P.A. provides legal counsel in all estate planning issues. We are well qualified to draft your individual estate planning documents, including the creation of trusts, wills, and advance directives, a critical part of any quality estate plan. Our experienced attorneys also provide exceptional legal counsel in probate law, probate administration, and the crucial financial planning necessary in any personal estate plan. We are well-versed in real estate law and can help you properly arrange all aspects of your affairs for the beneficiaries of your estate.

Our firm can also assist with the necessary legal documents in a guardianship, or make plans for unforeseen circumstances, such as the inability to manage one's own affairs due to an illness or accident. We are well qualified in all aspects of trust administration, asset protection, and art law. Our firm provides the quality work and attention to detail that is critical in high end estate planning. We are also very familiar with elder law and protecting the rights and interests of the elderly.

Every individual is unique, with different assets and properties, as well as personal wishes with regard to their estate. There is no cookie-cutter solution in estate planning; each estate plan is based upon the objectives of the individual. We will arrange your estate with the most beneficial directives that will help your heirs avoid problems of unnecessary taxation, or having to make medical decisions without knowing your personal desires in the matter.
